Title: Project Geologist

Heather Trexler has been with Moody and Associates, Inc. since 2003. Heather graduated from the University of Cincinnati in 2001 with a B.S. in Geology and graduated from West Virginia University in 2003 with a M.S. in Geology. At Moody, she performs various technical and management duties on a variety of environmental and mining projects including aspects of assessment and investigation. She has prepared numerous hydrologic and geologic sections of surface activity permits, underground mine permits and coal refuse disposal permits. Other duties include the preparation of technical reports, project management, staff management activities, business development and proposal preparation. Heather is a registered professional Geologist in Pennsylvania.

Heather also serves on the Board of Directors for the Pittsburgh Coal Mining Institute of America and the Pittsburgh section of the SME.
