

Mr. Alexander is a registered PE and Fireboss in WV. He was employed by CONOCO Mining Research working with prototype mining equipment and course coal slurry haulage systems. Later he joined Consol Energy Central Engineering Department for mine feasibility, valuation, acquisition, due diligence, mine sealing, coalbed methane and other mine engineering projects. He took early retirement in 2000, completed a Masters Degree in Energy Resources at the University of Pittsburgh, School of Engineering and is now pursuing a PhD in Mining Engineering at West Virginia University and teaching the capstone senior Mine Design courses.

Dan is a 31 year member of SME, has served as Pittsburgh Section Chair, Coal Division Chair and on the SME Board of Directors in addition to many technical and service committees. He received the Pittsburgh Section Distinguished Member and SME Stefanko “Best Paper/Presentation” Awards. He currently is Student Affairs Committee Chair and a member of the Joint Meeting Planning Committee.

SME has always been a place where I can meet and get to know colleagues in the mining industry and learn valuable information at the same time.
